## Q and A

What are the most popular or best selling products or services?

Our best-selling product is our very own Sweet Spot Sugar Scrub. It's completely natural, hand-made in small batches, and leaves your skin feeling oh-so silky soft.

How do you spend your free time? What is your indulgence?

My free time is devoted first to my dogs, Chloe and Sage, and then to my friends. My favorite indulgence is a scrub and massage at Olympus followed by a sushi dinner.

People may be surprised to know...

I worked as a respiratory therapist for nearly 15 years. My favorite part was working in the ER and also the hyperbaric chamber. There were days I would spend 8.5 hours locked in the small chamber with a patient, and I loved it.
